Spring's Greeting

To our many Friends and Patrons:

With the heralding in of 1915, it is with pleasure we are sending you our catalogue of all of the good old tried and true varieties of fruits and flowers as well as listing some of the newer novelties that have decided merit.

We would call particular attention to the Hansen Plums as they will soon be planted everywhere. You should have them and the ever-bearing strawberries. Our fields of Progressive and Superb the past fall were a remarkable sight loaded with their delicious berries. If you have not grown them yet, by all means delay it no longer, but secure a few plants this spring.

And last, but not least, don't forget Sir Walter Raleigh with his russet coat and Miss Polly with her polkadot dress, the aristocrat of the poultry yard.

W. J. MOYLE.
